## **Mobile DVR 4 Channel GDV-460M**

**This Vehicle DVR (Digital Video Recorder) is suitable for Trains, Buses, Mini-Buses, Taxis, Emergency Services and other public services. It has 4 Video Inputs and 2 Audio inputs. The DVR can record in continuous, motion detection based or event recording (such as door contacts). The DVR records onto SATA HDD (250G HDD included as standard). Backup can be taken using a PC.**

**Real-time recording and playback (25 frames).**

**4 Video Inputs, 2 Audio inputs**

**Continuous, motion detection, and alarm recording**

**IR Remote control**

**Backup to USB or card reader**

**PC software playback viewing and file conversion**

**Security protection**

**250G HDD included as standard (500G HDD Also Available)**

**Record GPS Data (speed and vehicle status) - optional**

Technical specification subject to change without notice

## **SPECIFICATION**

**Compression: Modified MPEG-4**

**Two channel audio recording**

**Real time display at 720 x 480 pixels, 100fps**

**Record speed: 100fps at 320 x 240 or 50fps at 720 x 480 pixels**

**Recording mode: Continuous, motion detection, and alarm (event recording)**

**Pre-recording and post-recording supporting at motion detection or event recording**

**Multiple recording frame rate: 50/100 Small frame size: 10KB**

**Quick backup to USB host (pen drive or card reader)**

**Clear view at fast speed playback mode**

**PC readable file format: viewable by Windows XP**

**Easy to integrate into surveillance system**

**Full list of logs for live, record, event record**

## **System**

**Compression format: modified MPEG-4**

**Signal Inputs: 4 Video inputs, 2 Audio Inputs**

**Record resolution: 704 x 480 (50fps) 352 x 240 pixels (100fps)**

**Frame size (704 x 480 pixels): 7 to 10.5KB**

**Frame size (352 x 240 pixels): 3.5 to 5 KB**

**Record resolution: 4 levels (super/high/normal/standard)**

**Record mode: continue/motion detection**

**Fast and slow playback: x2, x4, and x8, frame by frame**

**IR Remote control**

**Power consumption: 900mA/12V (with HDD)**

**Motion detection Privacy mask( 16 x 12 grid)**

**Picture in Picture (PIP)**

**Storage media: STAT HDD (250G HDD included)**

**Viewable on PC**

**USB host and USB slave**

**Output: one RCA A/V output port**

## **Power supply**

**Working voltage: 11 to 30V DC**

**Dimensions: 5.9 x 7.99 x 1.97 inches**

**Weight: 1450g**
