Set Up

You can download the app from the following places;

Android = Google Play Store

iPhone = AppStore

1. When you first open up the app you will arrive on the "Device List". In this screen you will need to press "EDIT".

2. Next you will need to enter your DVRs settings.

Address - Enter the IP address of you DVR or hostname.

Control Port - "67" by default.

Data Port - "68" by default.

Username - "aa" by default.

Password - "11" by default.

Cancel	Reboot	OK
Device Name	DDS1	
Address	192.168.0.110	
Control Port	67	
Data Port	68	
User Name	aa	
Password	••	
Video Stream	Record ▼	
Auto Connect	<input checked="" type="checkbox"/> false	

Once complete press OK.

3. You should now be back on the "Device List". If you successfully gain a connection to your DVR you will see a green tick on your device. Once you see the green tick, tap on your device.

4. You will now see you DVR beginning to connect and your cameras will appear in the coloured squar
