Motion Detection Setup – Avenger NVR

Start by going into SETTINGS > CHANNEL > SCHEDULE RECORD.

In here you will need to;

- 1 Tick "Enable Recording"
- 2 Tick "All Day Recording"
- 3 Select "Motion"
- 4 Click "Copy To.." and select all channels.

	Record Time Advanced	Setting Setting 4 - Copy To		

Once the above is complete click "Apply"

February 18, 2015

Next select "Motion" from the sub menu.

In here you will need to;

1 - Select which channel you wish to configure.

2 - Tick "Enable Motion Detection"

3 - Click "Setting" for "Area Setting", in here click and drag the red square so it covers the entire screen and press okay.
