

Playback and Backup on the Nero-IP NVR

Before following this guide ensure you USB stick is connected to the DVR (8GB max)

USB Stick MUST be formatted to FAT32 format before connecting to NVR

- First make sure you are logged into the DVR. Then right click and choose "Main Menu".
- Next select "Playback" (as the image below)

- In the PLAYBACK menu you will need to select the backup DAY (1), then which CHANNEL you want to backup from (2) and then finally you will press the LIST button (3)
