Playing back footage on the Vortec from a web browser

Firstly, open Internet Explorer as administrator to do this right click the icon and select Run as Administrator, then go to the IP address or domain name you use to access your Vortec NVR.

Once you have logged in, click the **playback** tab along the top of the page. This will bring you to the below screen.

Once you have selected the channels and the date you'd like to play, a green bar should appear in the timeline at the bottom of the page for each channel you have selected. The middle **blue bar** is where the video will be playing currently.

To change what time is playing on the screen, **click and drag** the green bars, this will move the footage forwards or backwards depending on which way you drag.
