Setting up Constant Recording

October 27, 2016

Constant Recording

Firstly, **login** to the Vortec and go to the **quick setup tab** along the top of the page. Then for the channel you would like to change **click the channel** in the record column. A new window will pop up and here you will need to **match the following settings**:

cord Policy - Internet Explorer	
Schedule Record	ON [11]
Record Policy	7*24H ~
Record Audio	I I OFF
Disk Group	1 🕶
Storage Policy	Overwrite 🕶
Stream	1-
	OK Cancel

Once you have done this click on the **OK** button. Then click the spanner icon in the motion alarm section you will then see the following screen.

Linkage		
Channel Record	Channel 1 2 3 4	5 6 7 8
Alarm Output	Post Record (0-86400s)	5
		Apply

Then please make sure that the **motion alarm button is set to the off** position. Then finally, click **Apply**, this will save the changes you have made and now your Vortec will be recording constantly all the time.
